Brand: Daily Wellness Company

Daily Wellness Company: ARGINMAX® for Men 180 Capsules

Description

For Male Sexual Fitness
Male Vitality, Stamina and Performance
Scientifically Validated
Box Contains One Month Supply

Dietary supplement with a premium patented formula of L-Arginine, Ginseng, Ginkgo plus 13 essential vitamins, antioxidants, and minerals to support male sexual function.

ArginMax for Male Sexual Fitness is a patented combination of L-Arginine, Ginseng, Ginkgo, and 13 essential vitamins and minerals which work together to improve sexual performance and stamina. Plus, it provides the benefits of a daily multi-vitamin which includes important antioxidants, and the minerals, selenium and zinc.

ArginMax for Male Sexual Fitness is a clinically validated formula that takes a more natural, gentle and gradual approach toward sexual health and wellness, rather than the conventional path of drug treatment.

The Daily Wellness Company, the maker of ArginMax, is committed to supporting scientific research. The Company has taken a methodical and clinical approach toward the development of ArginMax in order to establish the highest level of credibility and consumer trust. ArginMax is a recognized leader in nutritional products for sexual health and wellness.

L-Arginine is an important amino acid and is the building block of nitric oxide, which plays a major role in sexual function and erection. Nitric oxide is produced in response to messages from the brain, which triggers the release of nitric oxide, which causes the smooth muscles of the spongy tissue inside the penis to relax and then allows it to be filled with blood. A study published in 1994 showed an 80% improvement in the erectile function of men given 2.8 grams of L-Arginine a day after a two week period.

Ginseng, an herb used for thousands of years, promotes energy, stamina, and endurance and supports erectile function.

Ginkgo is the world's oldest living plant and is known as the "elixir of youth". It's extract supports blood circulation and mental focus.

Vitamins A, C and E have major roles as antioxidants, and are involved in reproductive processes. B Vitamins are important to the activity of hundreds of enzymes and in energy metabolism. Selenium is an antioxidant which is involved in reproductive function and supports immune defenses. Zinc is important for fertility, reproduction, cell growth and immune function.*

Suggested Use

As a dietary supplement, take 6 capsules total in the course of the day. While some may feel improvement in as little as 2 weeks, use for at least 4 weeks to begin experiencing enhanced sexual fitness. Continue to take 6 capsules daily to maintain maximum results.

Supplement Facts

| Supplement Facts | | |
|--|--------------------|------|
